I am froe from Catarrh. I believe that I can get a certificate to this effect from any compe-tent physician. I have used no medicine within the past six months except King's Royal Germa-teur. My health is better than it has been for teur. My heatin is better than it has been for thirty years. I am in possession of information that warrants me in eaying that the relief which I have experienced from the use of the medicine is not more certain and radical than that which it has brought to hundreds of persons in Georgia and other States.

RICHMOND, May 21, 1890. Yesterday we received another large lot of those SHIRT-WAISTS AND BLOUSES FOR BOYS that have become so popular. The new lot contains some nobby and original effects different from what have been heretofore shown, and a variety of colors and styles for boys from five to ten years of age. All of these garments are first-class in workmanship and of good material. Considering the grade they are VERY CHEAP, indeed, but by no means common. Mothers should look at these garments for their boys. They will find it to their advantage to do so.
